Assessment Booklet

2023

Hoxton Park High School

Year 9

Record of School Achievement

This booklet is designed to help you to **plan for your assessment in each of your courses this year**. It informs you of **all the tasks, the dates due and the weighting of each task and provides advice to help you to achieve your best**.

It is important to remember that:

- School Assessments contribute to you having satisfactorily completed the Record of School Achievement (RoSA).
- You do not miss any assessment tasks. Any missed tasks reduce your potential final result.
- Your assessment tasks in all subjects will contribute to your final grade in each subject.
- All Assessment Tasks are now presented to students at Hoxton Park High School on an assessment task sheet, to standardise the way you receive the information for the task.
- Tasks not completed due to illness or misadventure must be supported by a Doctor's Certificate which must be shown to your teacher immediately upon your return to school.
- You should put all the tasks that you have due onto a calendar so you do not forget when one is due (there is a sample within this booklet).
- Try to be better organised- use your homework diary and your calendar. Meet with your teachers to better understand your assessment tasks. We want you to achieve at the highest possible level.
- Homework and class work are also important- you must complete all set work and participate in your lessons.

Good luck and remember good grades do not just happen. They are due to hard work and dedication.

Mrs. Leny Wallace
Principal

N Determination

- N Determinations are issued to students who do not complete the requirements for a course.
- Students who are in danger of not meeting course completion criteria will be issued an N Determination Warning letter.
- Students who are warned two or more times in a course may be nominated for N Determination in that course.
- If a student has been N Determined in a mandatory course, he/she will not be eligible for a Record of School Achievement (RoSA). If leaving school, a Transcript of Study will be issued, listing mandatory courses for which an N Determination was given. The words “non-completed” will appear next to each N Determined course.
- If a student is given an N Determination In a non-mandatory course, the course will not appear on their RoSA or Transcript of Study.
- Any student who does not satisfy the course completion criteria will be nominated to the NSW Education Standards Authority (NESA) for an N Determination in that course.
- Students may be deemed unsatisfactory due to: failure to submit assessment tasks, failure to complete assessment tasks satisfactorily, and failure to apply themselves in the course through not completing course work or homework and through poor participation in the course through non-attendance.
- Unsatisfactory students will be nominated by the relevant Head Teacher and appropriate support documentation will be supplied. The student will be interviewed by the Principal and informed of the Appeal Process.
- Appeals are made on the appropriate NESA forms and are lodged with the Principal. Students are notified by the Principal regarding the success of his/her appeal.
- Students whose appeal is successful are awarded the RoSA in that course.
- Students whose appeal is unsuccessful are interviewed and invited to apply for a NESA Review of his/her N Determination. This application is made to the Principal who forwards all documentation to NESA for a final decision.

Assessment Policy (ver 2.7)

1. Introduction

1.1 What is assessment?

- Assessment is an essential component of the teaching and learning cycle. Assessment for, assessment as and assessment of learning are approaches that enable teachers to gather evidence and make judgements about student achievement. The Assessment Booklet contains Assessment Schedules, the Assessment Policy and student responsibilities.
- Assessment is a process which is used to measure the achievement of students in attaining course outcomes. A range of formative and summative assessment tasks will be used to determine student progress over the duration of each course.
- Formative tasks, such as homework, assignments, portfolios and classwork not included in the formal assessment schedule are of significance as they:
 - assist in skill and knowledge development.
 - identify areas for extension or remediation for the teacher and student.
 - provide opportunities for students to consolidate conceptual understanding.
 - provide evidence of sustained and diligent effort.

As such, all work set must be completed and submitted as required.

1.2 Why is there school assessment?

- It allows the student to be given credit for developing skills and knowledge over a period of time.
- It allows for evaluation of student achievement in those parts of courses, such as fieldwork and practical work, which are difficult to examine formally.
- It increases the accuracy of a student's final mark by using multiple assessment tasks, rather than a single examination to determine an appropriate result.
- A school assessment mark will inform the course grade of students studying in Years 7 to 11.
- A school assessment mark will inform 50% of a HSC student's mark.

1.3 How will these assessments be made?

Some or all of the following, may form the assessment program:

- Oral/aural tests
- Reports
- Essays
- Assignments
- Research
- Submitted practical work
- Fieldwork
- Lectures and oral presentations given
- Practical performance
- Formal examinations

1.4 Schedule of Assessment Tasks

- Tasks will occur regularly throughout each course.
- All students will be issued an *Assessment Booklet* indicating the assessment week(s) for each course.

1.5 What does great work look like?

The **Junior Secondary (7-10)** Common Grade Scale shown below can be used to report student achievement in all courses.

GRADE	GENERAL PERFORMANCE DESCRIPTORS
A	The student has an extensive knowledge and understanding of the content and can readily apply this knowledge. In addition, the student has achieved a very high level of competence in the processes and skills and can apply these skills to new situations.
B	The student has a thorough knowledge and understanding of the content and a high level of competence in the processes and skills. In addition, the student is able to apply this knowledge and these skills to most situations.
C	The student has a sound knowledge and understanding of the main areas of content and has achieved an adequate level of competence in the processes and skills.
D	The student has a basic knowledge and understanding of the content and has achieved a limited level of competence in the processes and skills.
E	The student has an elementary knowledge and understanding in few areas of the content and has achieved very limited competence in some of the processes and skills.

The **Preliminary Stage 6** (Year 11) Common Grade Scale shown below can be used to report student achievement in all courses.

GRADE	GENERAL PERFORMANCE DESCRIPTORS
A	The student demonstrates extensive knowledge of content and understanding of course concepts and applies highly developed skills and processes in a wide variety of contexts. In addition, the student demonstrates creative and critical thinking skills using perceptive analysis and evaluation. The student effectively communicates complex ideas and information.
B	The student demonstrates thorough knowledge of content and understanding of course concepts and applies well-developed skills and processes in a variety of contexts. In addition, the student demonstrates creative and critical thinking skills using analysis and evaluation. The student clearly communicates complex ideas and information.
C	The student demonstrates sound knowledge of content and understanding of course concepts and applies skills and processes in a range of familiar contexts. In addition, the student demonstrates skills in selecting and integrating information and communicates relevant ideas in an appropriate manner.
D	The student demonstrates a basic knowledge of content and understanding of course concepts and applies skills and processes in some familiar contexts. In addition, the student demonstrates skills in selecting and using information and communicates ideas in a descriptive manner.
E	The student demonstrates an elementary knowledge of content and understanding of course concepts and applies some skills and processes with guidance. In addition, the student demonstrates elementary skills in recounting information and communicating ideas.

2. Assessment Processes

2.1 Notification of Assessment Tasks

Formal notification for all assessment tasks must satisfy the following:

- Issued at least 2 weeks (10 school days) prior to the due date
- Issued in writing and includes:
 - Assessment Task Name
 - Due Date
 - Task requirements – What you need to do
 - Course outcomes assessed
 - Marking Criteria (with the exception of examinations)

The *Assessment Task Record of Issue* is a record of when an Assessment Task is issued. It is to be signed and dated by students as acknowledgement of receiving the formal notification of the task. This is retained by the teacher for their records.

Students absent on the day of receipt of notification have the responsibility to meet with their teacher, upon their return, to receive work missed during their absence, including formal notification of an assessment task. At this time an alternate due date may be negotiated (if necessary) with the Head Teacher.

2.2 Completion of Tasks

It is the expectation that all students will:

- complete all set classwork, homework and assessment tasks to the best of their ability.
- Where there is an opportunity to provide drafts for feedback, students may only submit **one draft** to their **class teacher at least 3 school days** prior to the due date.
- submit their own original work.
- complete and submit all tasks by the due date.

2.3 Submission of Assessment Tasks

- Students must submit all assessment tasks **on or before the due date**.
- Students must **attend school for the whole day** on the date a task is due. Students cannot be deemed to have gained an advantage through absence from school in order to work on a task and then submit the task before the end of the day.
- All assessment tasks must be submitted with a completed *Assessment Task Cover Sheet* to their teacher, or another teacher of that faculty.
- The student must **retain a signed receipt** (the bottom section of the *Assessment Task Cover Sheet*) **as proof of submission**.

Failure to complete/submit an assessment task on the due date and time will result in a ZERO (0) mark and an N Determination Warning letter issued.

It is essential that all assessment tasks are submitted even if they are late. A student who does not complete 50% of the assessment task weighted marks in a course may not be certified as satisfactory in that course and may not be eligible for a ROSA, Preliminary HSC or HSC.

2.4 Attitude and Effort

All tasks must be completed by the student to the best of their ability with diligence and sustained effort:

- Poor attitude and effort that result in lack of achievement of course outcomes and non-completion of work will result in faculty action. This may mean a letter home &/or telephoning parents. Students are expected to complete all work.
- Attitude and effort will form part of the School Report.
- An assessment task submitted that is deemed to be a non-serious attempt by the teacher will be referred to the Head Teacher for review, who will determine a suitable course of action to support the student, but the task may be awarded ZERO (0) and an N Determination Warning letter issued.

2.5 Feedback

All students will receive meaningful, constructive feedback from their assessment tasks, which is communicated via the mark achieved, the 'Marking Criteria' and additional teacher comments and discussion.

All feedback will aim to:

- explicitly communicate feedback on the components / outcomes being assessed.
- communicate explicit teacher feedback including descriptions of the student's strengths and areas of development.

2.6 School Reports

Assessment marks that students receive are reflected on their school reports. All work that students are set can be reflected in the student report. Students can self-evaluate the progress of their learning at the end of each reporting period.

2.7 Satisfactory Completion of Courses

A Course has been satisfactorily completed, when the student has:

- *Followed the course developed/endorsed by the NSW Education Standards Authority (NESA).*
- *Applied himself/herself with diligence and sustained effort to the set tasks and experiences provided in the course.*
- *Achieved some or all of the course outcomes.*

Students **must satisfactorily complete the components** of a stage to be eligible to proceed into the next stage. Similarly, students **must satisfactorily complete the Preliminary component** of a Course, as mandated by NSW Education Standards Authority (NESA), to be eligible to proceed into the HSC component in Year 12.

Where a student is at risk of receiving an N Determination, the school will warn the student and advise the parent in writing. In the case where a student is awarded a ZERO (0) mark in an assessment task, this warning and advice will be given.

Students whose **attendance** is poor may not satisfy course completion criteria. It is expected that all students will maintain an attendance rate of **85% or above**.

2.8 Keeping Records of All Assessment Marks and Copies of All Documentation Issued to Students

The school will support students by providing written notice of:

- Formal notification of the Assessment components and weightings
- The nature of each assessment task including assessment criteria
- The timing of each task (minimum of 2 weeks (10 school days) notice in writing)
- The mark value of each task
- The school policy for valid absences/lateness
- Providing feedback after each task of what the student did well and what they can do to improve
- Verifying assessment work that is completed outside the school
- Providing an assessment free zone before course examinations
- Providing marking criteria for each assessment item

It is the student's responsibility to:

- Work to the best of their ability
- Submit their own original work
- Keep evidence of work submitted
- Catch up on work including tasks issued/missed during absence

2.9 Retaining Student Work Samples

The awarding of Stage 5 and Stage 6 (Preliminary) grades places significant value on teachers' professional judgements about student achievements.

- Schools award grades based on student achievements in the Stage 5 and Stage 6 Preliminary courses they complete (except Life Skills and VET). These grades are reported on students' credentials.
- To strengthen the consistency of teachers' professional judgements in relation to state-wide standards, faculties are required to keep student work samples and corresponding assessment tasks for Years 10 and Preliminary students.
- Faculties are required to keep a minimum of three (3) work samples representing the upper, middle and lower range of achievement of their Years 10 and 11 cohorts for all their Stage 5 and Preliminary courses. Each of these work samples should demonstrate performance towards the end of the year that is typical of the student(s) awarded a particular grade (A to E) by the school.

2.10 Access to NSW Education Standards Authority (NESA) Documents

Students and parents have access to NESA, Subject Manuals and Prescribed Texts, Topics, Projects and works.

- The NESA website can be found at: <http://educationstandards.nsw.edu.au>
- Additional resources for the 7 to 12 courses and specific courses may be found at the school library, via the Year Adviser or the teacher and Head Teacher of the course concerned. Students may also consult the teacher-librarian for additional advice regarding resources.

3. Specific Information

3.1 Extensions

Extensions for Assessment Tasks are only granted in circumstances where a student may be disadvantaged due to a circumstance that is outside of their control.

A request for an extension for an assessment task can be made by:

- submitting the *Application for Extension - Assessment Task* to the Head Teacher of the subject, **at least 3 school days** before the assessment is due. Classroom teachers cannot grant an extension for Assessment Tasks.
- including all supporting documents, including a medical certificate or other written documents.

The Head Teacher will decide based on the evidence presented and that will not disadvantage the other students completing the task.

Students who submit tasks after the due date without appropriate documents will be awarded a ZERO (0) mark, which could result in the loss of the RoSA (Record of School Achievement), Preliminary HSC or HSC.

3.1.1 Special Consideration for religious observances

Students may apply for special consideration for an *in-class* assessment task/examination that falls on the day of an important religious/cultural event.

To be considered you must complete the *Special Consideration Form* and attach appropriate evidence/documentation and submit to the Head Teacher of the course **at least 3 school days prior to the task**.

This **does not** apply to any take home task that is due on the day of religious observance. As you are given a minimum of 2 weeks' notice to complete the task then it is your responsibility to hand in the task **before** the scheduled event.

No consideration will be given to students who do not follow this process.

This **DOES NOT** apply to any key dates and events set by NESA (<http://educationstandards.nsw.edu.au>)

3.2 Absence

In the event of an unavoidable absence on the day that an assessment task is due, or test is to be held, students **must**:

Years 7 and 8 (Stage 4)

Report to the teacher and Head Teacher of the faculty/KLA **on the first day that they return to school.**

Submit the task or negotiate an alternate date for in class tasks.

Supply the relevant documentation (e.g., parent note, doctor's certificate, funeral notice) to the Head Teacher of the faculty.

Years 9, 10, 11 and 12 (Stages 5 and 6)

Report to the teacher and Head Teacher of the faculty/KLA **on the first day that they return to school.**

Complete *Illness / Misadventure Appeal Form*.

Submit the task or negotiate an alternate date for in class tasks.

Supply the relevant documentation (e.g., doctor's certificate, funeral notice) to the Head Teacher of the faculty. A 'parent note' by itself is NOT sufficient and must be supported by additional relevant documentation.

The Head Teacher will then decide if the student will:

In the case of a test:

- Sit for the test or a substitute test
- Receive an estimate
- Be awarded ZERO (0) for that task and an N Determination Warning letter issued

In the case of a hand-in task:

- Be awarded ZERO (0) for that task and a N Determination Warning letter issued

In the case of absence when a task is due to be handed in:

- the student should try to ensure that the task is received by the teacher that day. This may mean a friend or relative bringing it to the school.
- If the student is aware that they are going to be absent on the due date, then it is the student's responsibility to **submit the task prior to their absence**. If the task is an examination, in-class test, practical examination, etc., then the student needs to notify the Head Teacher of that subject to seek an alternate arrangement or extension for the task.
- If this is not possible, then a doctor's certificate or appropriate documentation must accompany the assessment task, which must be handed in to the Head Teacher on the **first day back at school after an absence or illness**.

Students will always be given adequate time to complete a task, a minimum of 10 school days. Being absent from school on the day a task is issued is **no** excuse for not completing a task. **It is the responsibility of each student to find out what work has been missed due to absence and this includes classwork, homework, assignments or assessment tasks.**

Failure to follow these instructions or to have a suitable explanation, will lead to a ZERO (0) mark for that Assessment Task and an N Determination Warning letter issued.

3.3 Illness / Misadventure Appeals (Stage 5 and 6)

The Illness / Misadventure appeal procedures at Hoxton Park High School are based on the NESAs rules for illness / misadventure appeals. Illness / Misadventure appeals can apply to all types of official assessment tasks used to calculate the School-based Assessment mark and rank.

Students who become ill or suffer a misadventure (e.g., accident, family bereavement) that may adversely affect performance in an examination or assessment task are entitled to submit an Illness / Misadventure Appeal. The Illness / Misadventure Appeal Form must be completed in full to support the appeal. This includes the student statement and independent documentary evidence.

Independent documentary evidence may be in the form of a statement in the relevant section of, or attached to, the Illness / Misadventure Form. Such evidence may be provided by medical practitioners, school counsellors, Police and so on, who can attest to the nature of the illness / misadventure and how it is likely to affect performance in an exam or task. Medical evidence must be dated with a date on or before the assessment task date (i.e., cannot be post-dated).

It is important that students and/or parents contact the school as soon as possible if an issue arises that may lead to an illness / misadventure appeal. The school will provide advice and put in place the procedures necessary to support students through both the assessment and appeal processes.

The illness / misadventure process is designed to support individual students to achieve results that might accurately reflect their ability and effort. The process must also ensure the integrity of school-based assessment for all students in each course. Accordingly, students must be aware that each illness / misadventure appeal is considered on its merits and there is no guarantee that the appeal will be upheld.

3.4 Technology Failure

Computer technology fails from time to time and appropriate measures must be taken to back up work during the course of an assessment task. Computer or printer failure or malfunction cannot be taken as an acceptable reason for failure to submit an assessment task on time. It is the student's responsibility to save their work frequently and back it up to their hard drive, cloud (Google drive) and USB regularly. If computer failure occurs, the student must submit their last printed hard copy as evidence of work completed. If the assignment is to be submitted on USB, the last saved copy is to be submitted.

Students can email work to their own DoE email address and can **only** print during the allocated library opening times prior to the task being due. Allocated times will be before school (8:30am until roll call), Break 1 (except for Fridays) and Break 2.

3.5 Malpractice

Malpractice is defined as copying, cheating, talking, and disrupting others during an Assessment Task including examinations. Malpractice also occurs when there is an attempt to gain an unfair advantage over other students.

Types of malpractice in assessment tasks may include, but are not limited to:

- Plagiarism
- Possession of use of unauthorised notes
- Use of electronic device
- Submitted late (e.g. to have additional time to work on a task to gain an advantage over another student)
- Offensive behaviour
- Non-serious attempt
- Collusion with another student
- Copying another student
- Unacknowledged assistance
- Unauthorised access to exam
- Unauthorised alteration to task or marks
- Making a false claim

All Assessment Tasks must be:

- **The student's own original work.** You cannot submit a task that is not your own work or is identical to that of another student. You may work on a task with a friend / relative etc., but the final copy must be in your own words: i.e., it must be your original interpretation of the task. You cannot copy work from another source such as the internet.
- **Completed by a student in the current assessment period.** You may not hand in a task or part of a task completed for another assignment in this or previous years.

Speaking, disrupting, behaving inappropriately during an examination or carrying a mobile phone into an examination is malpractice.

The Head Teacher, in consultation with the class teacher, will establish if malpractice has occurred and parents/guardians will be advised in writing. If a student can produce conclusive evidence that malpractice has not occurred, an appeal may be lodged with the Deputy Principal in writing. An interview with the student will follow and the decision made will be final.

In situations where it is established that the student has copied from another student or misrepresented work copied from a source or committed any other type of malpractice, then a ZERO (0) mark will be awarded for the assessment task and an N Determination Warning letter issued. The student may be provided with a substitute task to demonstrate achievement of the relevant outcomes.

3.5.1 Plagiarism

Plagiarism is defined as presenting the ideas and words of others as if they were your own. Creating your own work and using the work of others which you have acknowledged is not plagiarism.

What you must do to avoid plagiarism:

1. You must give a reference if you take a fact or idea directly from someone else.
2. If you use the exact words of your source (if you quote), then you must enclose the whole quotation in inverted commas. If you don't use quotation marks, you can be accused of plagiarism.
3. Use your own words if you take information from other sources

The school reserves the right to award a ZERO (0) mark to work that contains any plagiarism at all.

Referencing

Referencing is a way of acknowledging the work of others which you have used in your assessment task. Hoxton Park High School uses the Harvard system of citation (also called the author/date system), which is mandatory in most universities, TAFE and other training colleges.

3.6 Student claims to have submitted a 'missing' Assessment Task

In the unlikely event that an assessment task cannot be located by the teacher, the student will be asked to provide their **signed receipt** (the bottom section of the *Assessment Task Cover Sheet*) **as proof of submission**.

- Head Teacher will decide if the student will resubmit the completed task or receive an estimate.
- If the student cannot produce the signed receipt, then it is assumed that the student did not submit the task and will receive a ZERO (0) mark and an N Determination Warning letter.

3.7 N Determinations

- Students who do not satisfactorily complete the required classwork, homework, assignments or assessment tasks will be nominated for N Determination.
- Students with any aspect of their work incomplete will receive a warning letter outlining what they need to do to have satisfactory completion. The letter will give the student 2 weeks to complete the outstanding work.
- Completion of the work does not negate the N Determination Warning letter.
- Students who have **TWO (2) or more** N Determination Warning letters of outstanding work in a subject will be considered for an N Determination.
- Students will only receive **ONE (1)** N Determination Warning letter for each task. No reminder letters will automatically be sent. It is the student's responsibility to complete that task promptly.
- The decision to nominate a student for N Determination is made by the Head Teacher of the faculty concerned.
- Students are given the opportunity to appeal an N Determination via the NESAs N Determination appeals process. This is provided to the student at the point of N Determination.
- Final decisions on N Determination are made by the Principal.

3.7.1 What is an N Determination?

An N Determination is a Non-Determination which is applicable for the Record of Student Achievement (RoSA in Year 10), Preliminary HSC or HSC. It is an unsatisfactory determination in a particular course and may affect the awarding of the RoSA, Preliminary HSC Course or the HSC for a student.

3.7.2 What is the N Determination Warning Letter?

This is an official letter warning students regarding unsatisfactory progress in a particular subject. It is addressed to the parent/guardian. A student will receive an N Determination Warning letter if they do not satisfy one or more of the following criteria:

- a) Followed the course developed or endorsed by the NESAs; and
- b) Applied themselves with diligence and sustained effort to the set tasks and experiences provided in the course by the school; and
- c) Achieved some or all of the course outcomes

3.7.3 What happens when I receive an N Determination Warning Letter?

- The official N Determination Warning letter will stipulate the task or issue for which you have been warned and the date the task was due. The letter will also stipulate a new due date and advice on how to satisfactorily complete the task.
- Submitting a task after an official warning letter has been sent does not nullify the initial warning. This warning remains on your file/record.
- It is important to be aware that N Determination Warning letters are not task specific, they are subject specific. Therefore, ALL warning letters for that subject accumulate and are numbered as such i.e. N Determination Warning 1, Warning 2, etc.

3.7.4 What happens when I receive two or more N Determination Warning letters in one subject?

When you receive two or more N Determination Warning letters for one subject, an N Determination nomination may be made by the Head Teacher of that subject. The Principal will then make the final decision on issuing the N Determination. This is usually done towards the end of the course on a date specified by NESAs.

3.7.5 What happens when I receive two or more N Determination Warning letters in more than one subject?

- At Hoxton Park High School, we will attempt to assist students to redeem themselves if they are at risk of being N Determined.
- Students who have been issued with 2 or more N Determination Warning letters will be interviewed by the Deputy Principal or Principal as part of the school review process. Support and advice will be provided specific to that student.

3.7.6 What happens when I receive an N Determination?

- For Stage 5 mandatory courses, An N Determination will result in that subject appearing on your Record of Student Achievement (RoSA) as *'Not Completed'*. For elective courses, this will result in that subject not appearing on your RoSA.
- For the Preliminary HSC, an N Determination will result in that subject not appearing on your Record of School Achievement (RoSA). Remember, if you do not successfully complete 12 Preliminary Units, you will not be awarded with a RoSA. This is a pre-requisite for the HSC Record of Achievement. To move on to the HSC, you may need to pick up a new Preliminary Course and this may mean taking longer to complete your HSC. If you are N Determined in English, you will not be eligible to continue on to Year 12 to complete the HSC Course.
- For the HSC, an N Determination will result in that subject not appearing on your HSC. Remember, if you do not successfully complete 10 HSC Units, you will not be awarded with the HSC. If you are N Determined in English, you will not be eligible for the HSC.

3.7.7 Deputy Principal Student Interview

The Deputy Principal has the following purposes:

- Students will be interviewed 'to show cause' when they have not fulfilled assessment requirements or are performing at an unacceptable level. Post-compulsory students (over 17 years old) must demonstrate active participation in the learning process.

When a student is interviewed by the Deputy Principal, the following may occur:

- Discuss the options available and consequences.
- Discuss and establish a student contract (if necessary).
- Inform parents of the situation in writing.
- Organise and conduct a parent interview (if needed with the appropriate school personnel).

3.7.8 Deputy Principal's Review Panel

The Deputy Principal's Review Panel enables students to be interviewed when they fail to meet Assessment requirements, or when an error may have been made in accumulated marks or ranking. The panel acts as an appeal mechanism within the school if a mark or ranking is challenged.

3.7.9 Appeals against Assessment Decisions in Assessment Tasks

The teacher's professional judgement will not be open to question, in line with the NES policy on assessment appeals.

Where a student is awarded a ZERO (0) on an assessment task or they believe the assessment task process is unfair, they have the right of appeal:

- All formal student appeals must be in writing on the Hoxton Park High School *Illness/Misadventure Form*.
- Students may discuss an assessment mark or decision with their course teacher or Head Teacher to seek clarification or to point out an error. The teacher or Head Teacher may adjust the assessment mark if there has been an error (e.g. an examination question marked incorrectly).
- If the student wishes to appeal an assessment mark or decision (such as a ZERO (0) mark or the fairness of the assessment task or procedure) they must put their appeal in writing and hand it in

person to the Deputy Principal responsible for their year group. Students must use the *Hoxton Park High School Illness/Misadventure form*.

- If the student is incapacitated (illness, injury) a person or guardian may lodge the appeal.
- The appeal must give full details: name, roll class, the nature of the task, any relevant documentation (e.g. doctor's certificate), and the specific reason for the appeal.
- The appeal cannot question teacher's assessment judgements, that is, they cannot question the mark given. Appeals can **only be based** on the school's failure to follow our assessment policy and processes, fairly and professionally.
- The student must lodge the appeal within a reasonable time frame, usually **within ten school days** from the time they receive the assessment mark for the task.
- The Deputy Principal will, usually within five school days, convene an Appeal Panel. The panel will comprise the Deputy Principal, the Year Adviser or nominee and a nominated student representative. The panel will meet to consider the appeal. The panel may seek clarifications from the student and the teaching staff. The panel will only examine the assessment process, not the professional assessment judgement made by a teacher. The panel will communicate its decision in writing to the student and the faculty Head Teacher within a reasonable timeframe. This would normally be within five school days from the time the panel is convened. A record of the appeal and decision will be kept on file.

The panel may decide:

- To reject the appeal.
- To uphold the appeal and advise the Head Teacher to follow procedures that restore equity and validity to the assessment task, this could include setting an alternative task, giving an estimate, restoring marks, re-marking the task or sections of it, deleting the task from the weightings or reducing the weighting of the task.
- If a student wishes to appeal the Panel's decision, they must put their appeal in writing to the Principal within five school days from the time they received the Panel's written decision. The Principal's decision is final.
- Appeals to NESAs are handled directly by the Principal.

3.7.10 Appealing an N Determination decision

The Principal will notify the NESA of any student who has not met NESA requirements. They may be given an N Determination for a course or may not be awarded a NSW Record of School Achievement (RoSA) on the grounds of unsatisfactory attendance or application.

The Principal will also notify the student of his / her actions and pass on appropriate information including an appeal form to be given to the student / parent. Final dates for submission will be notified at that time. A student may be N Determined in Year 10 due to work not completed in Years 7, 8 and 9.

4 Vocational Education and Training (VET) Assessment

4.1 VET Specific Information for Courses

Current VET courses offered include Construction, Hospitality (Stage 5), Hospitality – Food and Beverage, Information and Digital Technology (IDT), Retail Services and Primary Industries. Certificate I & II can be awarded through a variety of frameworks.

4.2 Assessment Policy – HSC VET – Industry Curriculum Framework Courses

VET courses focus on the achievement of workplace competence. Competence incorporates all aspects of work performance including communication, problem solving and the capacity to apply skills and knowledge in both familiar and new situations as well as industry specific skills.

Assessment for the HSC VET courses within Industry Curriculum Frameworks has two purposes:

- Assessment for Australian Qualification Framework (AQF) VET qualifications – competency based assessment.
- Assessment for the Australian Tertiary Admissions Rank (ATAR)

Assessment for VET Courses is competency based and a holistic integration of competencies is recommended. Students are given the opportunity to develop skills over time and are allowed a number of attempts to satisfy the performance criteria. VET Assessment schedules do not require a percentage (%) weighting of each assessment activity but reflect the holistic competencies based nature of assessment.

Assessment of competence is criteria – referenced, this means the individual student's performance is judged against a prescribed standard, not against the performance of other students. Students will be judged as **'competent'** or **'not yet competent'**. This judgement will be arrived at on the basis of evidence, which may be in a variety of forms.

Students are given feedback concerning their progress through access to Competency Records and via verbal and written feedback from the teacher in relation to learning activities.

Some forms of assessment will be gathered on an on-going basis. Other evidence will be collected through specific assessment tasks such as projects and assignments, written and practical tests and role plays and simulations. The student's classroom teacher and/or workplace supervisor will conduct assessment if they are a qualified assessor.

Work Placement is a key component of successfully completing a VET course. Students are mandated to complete 35 hours work placement in the preliminary course and 35 hours work placement in the HSC course.

The rules and processes applying to an N Determination apply to a student undertaking a VET course.

4.3 VET HSC Optional Examination

The HSC examination is independent of competency based assessment requirements for AQF qualifications. It is optional for students of VET courses and intended for Australian Tertiary Admissions Rank (ATAR) purposes only.

Only 1 VET course (2 units) may be included in the students 10 units for ATAR.

Students wishing to withdraw from the HSC Examination must do so prior to the HSC Examination by completing the "Student Request to Withdraw from the HSC Examination" form.

4.4 Estimate Mark

The school will provide an estimate mark to the NESA for all students undertaking a VET course. The Estimate Mark will consist of an aggregate mark:

Preliminary Course Yearly Examination 30% HSC Trial Examination 70%

4.5 Appeals for Unsatisfactory Course Completion – Student Appeals

Students have the right to lodge an appeal against the assessment of their competency on the following grounds:

- The assessment process did not provide them with a fair and reasonable opportunity to demonstrate their competency.
- They were not informed in advance of the conditions and method of assessment.
- The process used was discriminatory in some way.
- They were ill or suffered a misadventure at the time of the assessment. This must be supported a medical certificate.

Formal appeals must be based on identified problems with the assessment process rather than an unsuccessful assessment result. Appeals must be lodged within five (5) school days from the date of assessment.

Where there are grounds for appeal, a teacher/qualified assessor, other than the classroom teacher/assessor used to moderate course assessment, will then assess the student's competence. This assessor may be a teacher from another school or TAFE.

4.6 Work Placement

4.6.1 Work Placement is a mandatory requirement for each VET course

Failure to complete a Work Placement will render the student ineligible for the award of a HSC credential. Students **MUST** complete their work placement at times given to them by the school or they will be N determined and they will need to organise their own replacement work placement.

A minimum of 70 hours of work placement in the Preliminary and HSC Course for each VET course is a mandatory NESA requirement. The first 35 hour work placement is to be completed in the Preliminary year with the second 35 hour work placement completed in the HSC year.

4.6.2 Student Responsibilities for Assessment Tasks Due During Work Placement:

- You may submit the assessment task on the day before you go to work placement or make arrangements for the task to be submitted on your behalf on the due date.
- No extensions will be granted for work placement.
- Work Placement is not a reason for the non-completion of assessment tasks.

4.6.3 Non-Attendance at the Workplace

- If you are absent from the workplace you must inform your employer before the workplace starting time, and also inform school, on any day you cannot attend work placement.
- Days missed must be made up, so that you successfully complete the minimum hours. You must submit assessment tasks on the day before you go to work placement if your work placement is only one day per week.

HOXTON PARK HIGH SCHOOL

ASSESSMENT TASK COVER SHEET

All assessment tasks must be submitted with this completed and attached *Assessment Task Cover Sheet* to their teacher, or another teacher of that faculty.

Students must:

- submit all assessment tasks **on or before the due date**.
- **attend school for the whole day** on the date a task is due. Students cannot be deemed to have gained an advantage through absence from school to work on a task and then submit the task before the end of the day.
- **retain a signed receipt** ('Part B' of this form) **as proof of submission**.

Failure to complete/submit an assessment task on the due date and time will result in a ZERO (0) mark and an N Determination Warning letter issued.

All applications for an extension of time should be in writing prior to the due date of submission of the assessment task as per the Hoxton Park High School Assessment Policy.

Student Examination Procedures

1. The examination will take place according to the timetable.
2. Examinations will be held in the Hall or room specified on the timetable.
3. Full school uniform must be worn. There must be no hats, no mobile phones, no dark glasses, no head phones/air pods, no smart watches and no programmable calculators (only NESAs approved calculators are permitted).
4. Students' bags/folders etc must be left at the front of the examination room in the place designated by the teacher in charge.
5. Students should report to the examination venue 10 minutes prior to the commencement of each examination. No extra time is given to late arrivals. Students are to **line up outside the Hall or other allocated venue**. For students accessing Special Provisions, all examinations will be held in a room specified by Head Teacher Administration.
6. Students will not be attending morning assemblies or roll call.
7. Attendance slips must be completed prior to each examination.
8. Examination attendance is compulsory and marks gained form part of the final assessment. Students must remain in the examination venue for the duration of their examination.
9. Parents should phone the school on 9607 4222 by 8.45am in the event of student absence. **Students must obtain a Medical Certificate that specifies the nature of the illness, which must be handed in immediately upon returning to school. Students must comply with the School's Assessment Policy and follow the appropriate protocols. Refer to the Assessment Policy for further details.**
10. When a student fails to sit an examination, it is not the student's automatic right to sit that examination at a later date. This is a serious matter and will be dealt with by the Head Teacher and Head Teacher Administration. Zero marks may be given unless the circumstances are accepted by the school as genuine, unavoidable and as per the Assessment Policy. Students should report to the appropriate Head Teacher on the next day they attend school with all appropriate documentation. Students must comply with the school's Assessment Policy and follow the appropriate protocols. Students must see the Head Teacher Administration for the rescheduling of examinations.
11. Misbehaviour will not be tolerated and all incidents will be recorded on Sentral. At the conclusion of the examination the faculty Head Teacher will be notified, who will issue consequences, e.g. Contact parents or refer to the relevant DP. The details will be entered on Sentral and an appropriate consequence issued. **Note:** That in extreme cases of misbehaviour the supervising teacher will remove the student from the examination room and refer to the relevant Deputy Principal. As this is a formal examination, it is likely that a zero mark and an N-Determination Course Warning Letter will be issued.
12. **Mobile phones are not to be brought into the examination room. You are to keep them at home or hand in to the Front Office prior to your examination.** If a mobile phone causes a disturbance it will be confiscated and processed as per mobile phone policy. The incident will be recorded on Sentral. If a phone rings in a bag, the bag is to be confiscated and processed at the Fees Office as per mobile phone policy. Bringing a mobile phone into an examination room is considered malpractice. A zero mark and an N Determination warning will be issued.

13. No borrowing of materials or other equipment is allowed. Ensure that you have the appropriate materials for each examination. For Mathematics you will need a NESAs approved calculator, pens, ruler, etc. It is your responsibility to ensure the calculator is functioning correctly and that the battery is charged. For NESAs approved calculators, visit: <https://educationstandards.nsw.edu.au/wps/portal/nesa/11-12/hsc/rules-and-processes/approved-calculators>

You **can** bring the following items into your exams:

- A clear pencil case
- black pens
- pencils (must be at least grading 2B), erasers and a sharpener
- a ruler marked in millimetres and centimetres
- highlighter pens
- a clear bottle of water
- a non-programmable watch, which you must take off, place on your desk in clear view and not touch during the examination.

You **cannot** bring any of the following into the examination room:

- mobile phones
- programmable watches, like smart watches
- any electronic devices (except a NESAs approved calculator, if allowed), including communication devices, organisers, tablets, music players, earphones, air pods or electronic dictionaries
- paper or any printed or written material (including your exam timetable)
- dictionaries (except in language examinations, if allowed)
- correction fluid or correction tape.

You cannot borrow equipment during exams. Teachers may inspect your equipment when you enter the room, and will tell you where to place any unauthorised items. They are not responsible for these items.

14. Anyone found cheating (Malpractice) in an examination will be referred to the Head Teacher of the subject and may be awarded zero marks in that examination and an N-Determination Course Warning Letter (as per the Assessment Policy).
15. **Year 11 & 12 Only:** Please be reminded that during the Examination period, students are on a flexible timetable. This means that they only attend school when they have a scheduled examination. Students will be able to leave school after their examination and study at home. This time should be used to study and prepare for their success in the HSC. Students are welcome to remain at school only if they are utilising the Senior Study Room in the Library for private study. As per normal procedure, students should follow the sign in procedures in the Library and the Front Office and sign in as a visitor.
16. Students who have TAFE commitments must see the Head Teacher Administration prior the commencement of the Examination period.

English Course Outcomes:

The Student:

- EN5-1A responds to and composes increasingly sophisticated and sustained texts for understanding, interpretation, critical analysis, imaginative expression and pleasure
- EN5-2 effectively uses and critically assesses a wide range of processes, skills, strategies and knowledge for responding to and composing a wide range of texts in different media and technologies
- EN5-3B selects and uses language forms, features and structures of texts appropriate to a range of purposes, audiences and contexts, describing and explaining their effects on meaning
- EN5-4B effectively transfers knowledge, skills and understanding of language concepts into new and different contexts
- EN5-5C thinks imaginatively, creatively, interpretively and critically about information and increasingly complex ideas and arguments to respond to and compose texts in a range of contexts
- EN5-6C investigates the relationships between and among texts
- EN5-7D understands and evaluates the diverse ways texts can represent personal and public worlds
- EN5-8D questions, challenges and evaluates cultural assumptions in texts and their effects on meaning
- EN5-9E purposefully reflects on, assesses and adapts their individual and collaborative skills with increasing independence and effectiveness

Note: Not all outcomes need to be covered each year. All outcomes will be covered across each stage.

4. MA5.1-4NA solves financial problems involving earning, spending and investing money
5. MA5.1-5NA operates with algebraic expressions involving positive-integer and zero indices, and establishes the meaning of negative indices for numerical bases
6. MA5.1-6NA determines the midpoint, gradient and length of an interval, and graphs linear relationships
7. MA5.1-7NA graphs simple non-linear relationships
8. MA5.1-8MG calculates the areas of composite shapes, and the surface areas of rectangular and triangular prisms
9. MA5.1-9MG interprets very small and very large units of measurement, uses scientific notation, and rounds to significant figures
10. MA5.1-10MG applies trigonometry, given diagrams, to solve problems, including problems involving angles of elevation and depression
11. MA5.1-11MG describes and applies the properties of similar figures and scale drawings
12. MA5.1-12SP uses statistical displays to compare sets of data, and evaluates statistical claims made in the media
13. MA5.1-13SP calculates relative frequencies to estimate probabilities of simple and compound events

Note: Not all outcomes need to be covered each year. All outcomes will be covered across each stage.

5.1 students must fulfil the above outcomes to meet the requirements of the 5.1 course. However, 5.1 students may also access 5.2 and 5.3 outcomes.

Mathematics 5.2 Course Outcomes:

The Student:

1. MA5.2-1WM selects appropriate notations and conventions to communicate mathematical ideas and solutions
2. MA5.2-2WM interprets mathematical or real-life situations, systematically applying appropriate strategies to solve problems
3. MA5.2-3WM constructs arguments to prove and justify results
4. MA5.2-4NA solves financial problems involving compound interest
5. MA5.2-5NA recognises direct and indirect proportion, and solves problems involving direct proportion
6. MA5.2-6NA simplifies algebraic fractions, and expands and factorises quadratic expressions
7. MA5.2-7NA applies index laws to operate with algebraic expressions involving integer indices
8. MA5.2-8NA solves linear and simple quadratic equations, linear inequalities and linear simultaneous equations, using analytical and graphical techniques
9. MA5.2-9NA uses the gradient-intercept form to interpret and graph linear relationships
10. MA5.2-10NA connects algebraic and graphical representations of simple non-linear relationships
11. MA5.2-11MG calculates the surface areas of right prisms, cylinders and related composite solids
12. MA5.2-12MG applies formulas to calculate the volumes of composite solids composed of right prisms and cylinders
13. MA5.2-13MG applies trigonometry to solve problems, including problems involving bearings
14. MA5.2-14MG calculates the angle sum of any polygon and uses minimum conditions to prove triangles are congruent or similar
15. MA5.2-15SP uses quartiles and box plots to compare sets of data, and evaluates sources of data
16. MA5.2-16SP investigates relationships between two statistical variables, including their relationship over time
17. MA5.2-17SP describes and calculates probabilities in multi-step chance experiments

Note: Not all outcomes need to be covered each year. All outcomes will be covered across each stage. 5.2 students must fulfil 5.1 outcomes in addition to the above outcomes to meet the requirements of the 5.2 course. 5.2 students may also access 5.3 outcomes.

Mathematics 5.3 Course Outcomes:

The Student:

1. MA5.3-1WM uses and interprets formal definitions and generalisations when explaining solutions and/or conjectures
2. MA5.3-2WM generalises mathematical ideas and techniques to analyse and solve problems efficiently
3. MA5.3-3WM uses deductive reasoning in presenting arguments and formal proofs
4. MA5.3-4NA draws, interprets and analyses graphs of physical phenomena
5. MA5.3-5NA selects and applies appropriate algebraic techniques to operate with algebraic expressions
6. MA5.3-6NA performs operations with surds and indices
7. MA5.3-7NA solves complex linear, quadratic, simple cubic and simultaneous equations, and rearranges literal equations
8. MA5.3-8NA uses formulas to find midpoint, gradient and distance on the Cartesian plane, and applies standard forms of the equation of a straight line
9. MA5.3-9NA sketches and interprets a variety of non-linear relationships
10. MA5.3-10NA recognises, describes and sketches polynomials, and applies the factor and remainder theorems to solve problems
11. MA5.3-11NA uses the definition of a logarithm to establish and apply the laws of logarithms
12. MA5.3-12NA uses function notation to describe and sketch functions
13. MA5.3-13MG applies formulas to find the surface areas of right pyramids, right cones, spheres and related composite solids
14. MA5.3-14MG applies formulas to find the volumes of right pyramids, right cones, spheres and related composite solids
15. MA5.3-15MG applies Pythagoras' theorem, trigonometric relationships, the sine rule, the cosine rule and the area rule to solve problems, including problems involving three dimensions
16. MA5.3-16MG proves triangles are similar, and uses formal geometric reasoning to establish properties of triangles and quadrilaterals
17. MA5.3-17MG applies deductive reasoning to prove circle theorems and to solve related problems
18. MA5.3-18SP uses standard deviation to analyse data
19. MA5.3-19SP investigates the relationship between numerical variables using lines of best fit, and explores how data is used to inform decision-making processes

Note: Not all outcomes need to be covered each year. All outcomes will be covered across each stage. 5.3 students must fulfil 5.1 and 5.2 outcomes in addition to the above outcomes to meet the requirements of the 5.3 course.

Personal Development Health & Physical Education Course Outcomes:

The Student:

PD5-1 assesses their own and others' capacity to reflect on and respond positively to challenges

PD5-2 researches and appraises the effectiveness of health information and support services available in the community

PD5-3 analyses factors and strategies that enhance inclusivity, equality and respectful relationships

PD5-4 adapts and improvises movement skills to perform creative movement across a range of dynamic physical activity contexts

PD5-5 appraises and justifies choices of actions when solving complex movement challenges

PD5-6 critiques contextual factors, attitudes and behaviours to effectively promote health, safety, wellbeing and participation in physical activity

PD5-7 plans, implements and critiques strategies to promote health, safety, wellbeing and participation in physical activity in their communities

PD5-8 designs, implements and evaluates personalised plans to enhance health and participation in a lifetime of physical activity

PD5-9 assesses and applies self-management skills to effectively manage complex situations

PD5-10 critiques their ability to enact interpersonal skills to build and maintain respectful and inclusive relationships in a variety of groups or contexts

PD5-11 refines and applies movement skills and concepts to compose and perform innovative movement sequences

Science Course Outcomes:

The Student:

- SC5-1VA appreciates the importance of science in their lives and the role of scientific inquiry in increasing understanding of the world around them
- SC5-2VA shows a willingness to engage in finding solutions to science-related personal, social and global issues, including shaping sustainable futures
- SC5-3VA demonstrates confidence in making reasoned, evidence-based decisions about the current and future use and influence of science and technology, including ethical considerations
- SC5-4WS develops questions or hypotheses to be investigated scientifically
- SC5-5WS produces a plan to investigate identified questions, hypotheses or problems, individually and collaboratively
- SC5-6WS undertakes first-hand investigations to collect valid and reliable data and information, individually and collaboratively
- SC5-7WS processes, analyses and evaluates data from first-hand investigations and secondary sources to develop evidence-based arguments and conclusions
- SC5-8WS applies scientific understanding and critical thinking skills to suggest possible solutions to identified problems
- SC5-9WS presents science ideas and evidence for a particular purpose and to a specific audience, using appropriate scientific language, conventions and representations
- SC5-10PW applies models, theories and laws to explain situations involving energy, force and motion
- SC5-11PW explains how scientific understanding about energy conservation, transfers and transformations is applied in systems
- SC5-12ES describes changing ideas about the structure of the Earth and the universe to illustrate how models, theories and laws are refined over time by the scientific community
- SC5-13ES explains how scientific knowledge about global patterns of geological activity and interactions involving global systems can be used to inform decisions related to contemporary issues
- SC5-14LW analyses interactions between components and processes within biological systems
- SC5-15LW explains how biological understanding has advanced through scientific discoveries, technological developments and the needs of society
- SC5-16CW explains how models, theories and laws about matter have been refined as new scientific evidence becomes available
- SC5-17CW discusses the importance of chemical reactions in the production of a range of substances, and the influence of society on the development of new materials

Agricultural Technology Course Outcomes:

The Student:

AG5-1 explains why identified plant species and animal breeds have been used in agricultural enterprises and developed for the Australian environment and/or markets

AG5-2 explains the interactions within and between agricultural enterprises and systems

AG5-3 explains the interactions within and between the agricultural sector and Australia's economy, culture and society

AG5-4 investigates and implements responsible production systems for plant and animal enterprises

AG5-5 investigates and applies responsible marketing principles and processes

AG5-6 explains and evaluates the impact of management decisions on plant production enterprises

AG5-7 explains and evaluates the impact of management decisions on animal production enterprises

AG5-8 evaluates the impact of past and current agricultural practices on agricultural sustainability

AG5-9 evaluates management practices in terms of profitability, technology, sustainability, social issues and ethics

AG5-10 implements and justifies the application of animal welfare guidelines to agricultural practices

AG5-11 designs, undertakes, analyses and evaluates experiments and investigates problems in agricultural contexts

AG5-12 collects and analyses agricultural data and communicates results using a range of technologies

AG5-13 applies Work Health and Safety requirements when using, maintaining and storing chemicals, tools and agricultural machinery

AG5-14 demonstrates plant and/or animal management practices safely and in collaboration with others

The Student:

CS5-1 identifies the characteristics of a child at each stage of growth and development

CS5-2 describes the factors that affect the health and wellbeing of the child

CS5-3 analyses the evolution of childhood experiences and parenting roles over time

CS5-5 evaluates strategies that promote the growth and development of children

CS5-6 describes a range of appropriate parenting practices for optimal growth and development

CS5-7 discusses the importance of positive relationships on the growth and development of children

CS5-8 evaluates the role of community resources that promote and support the wellbeing of children and families

CS5-9 analyses the interrelated factors that contribute to creating a supportive environment for optimal child development and wellbeing

CS5-10 demonstrates a capacity to care for children in a positive, understanding and tolerant manner in a variety of settings and contexts

CS5-11 analyses and compares information from a variety of sources to develop an understanding of

child growth and development

CS5-12 applies appropriate evaluation techniques when creating, discussing and assessing information related to child growth and development

Photographic & Digital Media Course Outcomes:

The Student:

- 5.1 develops range and autonomy in selecting and applying photographic and digital conventions and procedures to make photographic and digital works
- 5.2 makes photographic and digital works informed by their understanding of the function of and relationships between artist–artwork–world–audience
- 5.3 makes photographic and digital works informed by an understanding of how the frames affect meaning
- 5.4 investigates the world as a source of ideas, concepts and subject matter for photographic and digital works
- 5.5 makes informed choices to develop and extend concepts and different meanings in their photographic and digital works
- 5.6 selects appropriate procedures and techniques to make and refine photographic and digital works
- 5.7 applies their understanding of aspects of practice to critically and historically interpret photographic and digital works
- 5.8 uses their understanding of the function of and relationships between the artist–artwork–world–audience in critical and historical interpretations of photographic and digital works
- 5.9 uses the frames to make different interpretations of photographic and digital works
- 5.10 constructs different critical and historical accounts of photographic and digital works
